

Out of Pocket Prenatal exam	Pregnancy Week
First prenatal blood tests (CBC/DC)	8-12
Basic blood serum assessment (Liver 、 Renal 、 Diabetic screening)	
Spinal Muscular Atrophy Screening	
Fragile X Syndrome Screening	
The methylenetetrahydrofolate reductase (MTHFR) mutation test	
Gene Career Screening V1.0	
Gene Career Screening V2.0	
Gene Career Screening V3.0	
Thyroid Function Screening: Anti-TPO ab, TSH, free T4	
Calcium defect screen (Vitamin D, Concentration of serum calcium)	
Congenital Infection Screening (Cytomegalovirus 、 Toxoplasmosis 、 IgG 、 IgM)	
Allergy assessment	
Breast Clinical Consultation	8-13+6
Breast ultrasound	
The Automated Breast Volume Scan	
1st trimester risk assessment (SEARCH)	8-13+6
1st trimester genetic risk assessment + early onset preeclampsia + preterm birth risk assessment	
1st trimester genetic risk assessment (Down Syndrome screen)	Blood test 11-13+6 Ultrasound
Nuchal translucency ultrasound + maternal blood result + PAPP-A, freeβ-hCG	
Early Onset preeclampsia risk assessment (blood pressure 、 uterine artery blood flow 、 PIGF)	
Preterm birth risk assessment (Cervical length measurement)	11-13+6 Ultrasound
Nuchal translucency ultrasound and 1st trimester fetal development examination (Not including blood tests)	
Non-Invasive Prenatal Screen V2.0(NIPS)	>10
NIPS PLUS V3.0	>10
New 2nd Trimester Quad Screen Test	15-20
Aminocentesis + Traditional Chromosome screening	16-20
Comprehensive SOFIVA Array V1.0	
Comprehensive SOFIVA Array V2.0	
Comprehensive SOFIVA Array V3.0	20-24
Level II Ultrasound	
2nd and 3rd trimester preeclampsia risk assessment (sFlt-1/PIGF)	>20
2nd and 3rd trimester preterm birth risk assessment (FFN)	>22
75gm Oral Glucose Tolerant Test	24-28
Hepatitis C test	24-32
T-dap vaccine (Tetanus, Diphtheria and Pertussis)	24-34
Group B Streptococcus test (IC47,48,49)	35-37
Non-Stress Test	36-Birth
AmniSure rupture of membrane test
